

Classroom culture – that's how I want it!

Prioritize the following statements from 1-16, where 1 is most important for you to contribute to a good working environment for you and the rest of the class.

It is important:

That I feel safe

That I can check messages and updates

That I feel that we are moving professionally

That I get to say something every day

That I have good comrades

That I can catch my bus

That I know my role and people's expectations of me

That I don't get absences

That I have a laptop or tablet with me

That I can help each other

That I know how to solve a task

That I know my responsibility and responsibility of others

That I get my homework done

That I use the school platforms to keep up if I'm absent

That I get written assignments back quickly

That I experience that there is a good atmosphere in the team – preferably with humour
