

Classroom culture – that's how we want it!

Prioritize the following statements from 1-16, where 1 is most important for you to contribute to a good working environment in class so that everyone learns the most and wants to come.

It is important:

That we feel safe

That we can check messages and updates

That we feel that we are moving professionally

That we get to say something every day

That we have good comrades

That we can catch a bus

That we know our role and people's expectations of us

That we don't get absences

That we have a laptop or tablet with us

That we can help each other

That we know how to solve a task

That we know our responsibility and the others

That we get our homework done

That we use the school platforms to keep up if we are absent

That we get written assignments back quickly

That we experience that there is a good atmosphere in the team – preferably humour
